HOME AND GARDEN

LOOK BOOK 2024

Quality, value & service are the foundations of our company philosophy. A UK based, family run company started in 1990, we have a reputation for offering carefully curated designs to suit all tastes, introducing new innovative products & providing outstanding customer service & delivery. We stand true to our core values of investing not just in our furniture, but in our people too.

We continue to take inspiration from our valued customers & we believe our continued passion, enthusiasm & experience, all gained in the past 34 years, stands us apart from the crowd. All of our products are beautifully designed to be durable, functional & offer total comfort, without sacrificing style.

## Sunbrella® Fabrics

We are proud to engineer our garden furniture with Sunbrella® Natte, which is the trusted outdoor fabric that can withstand all the elements. Made of 100% solution-dyed acrylic fibres, it is fade, stain and UV resistant & backed with a 5-year guarantee.

The most powerful feature of this fabric is its robust quality to withstand rain and heavy downpours. This means it can be left outside all year-round without the need to cover. The porous open-cell Quick Dry Foam allows water to drain very rapidly and fresh air to circulate freely. During the aftermath of stormy conditions, followed by sunshine, the furniture can be ready to use again within as little as 30 minutes.

Slate Natte

Stone Natte

## Axroma® Fabrics

Axroma® 100% Mackintosh Olefin fabric is an environmental synthetic textile which is UV & fade resistant due to being solution dyed its environmentally friendly & made without topical chemicals.

PP/Olefin fabric resists growth of bacteria and mildew & is quick drying, naturally repelling any surface water. Being poreless it is difficult for dirt and stains to adhere to & is backed with a 3-year guarantee.

Graphite

Ivory

## Fabric Maintenance

Even in the harshest of climates, our fabrics provide years of enjoyment. The fabric is weather resistant and can be simply cleaned with water. To remove more stubborn stains, use a mild solution of water and bleach followed by careful use of a pressure washer on a wide spray.

### Easy Care

Our fabric furniture is considered low maintenance. Spills and stains can be cleaned using soapy water, or a mild bleach solution for more stubborn stains.

### Weather Ready

Our Quick Dry Foam technology lets water pass through quickly, meaning your furniture will be dry and ready-to-use again in no time.

### Fade Resistant

Our products are upholstered using 100% solution dyed Acrylic. This mean that the fabric yarns are coloured all the way through, creating a more fade-resistant material.

### Built to last

Our Sunbrella® Natte fabric carries a 5-year guarantee, covering any manufacturing faults or defects within the material and quick dry foam.

For full guarantee information, please visit our website.

## Material Information

### Sunbrella® Fabric

Sunbrella® is made from 100% solution dyed Acrylic fibres with pigmentation added prior to extrusion. Natte fabric offers a lush look and soft feel, all woven in a basket style pattern.

### Axroma® Fabric

Axroma® is made from 100% solution dyed Olefin which is an environmental synthetic textile. It is UV & fade resistant due to being solution dyed and is environmentally friendly.

### Sling

Textilene is a manmade mesh fabric woven from polyester with a PVC coating. Incredibly durable, its resistant to fading, easy to clean & resistant to mould & mildew.

### Powder Coated Aluminium

Aluminium is a proven lightweight material which is extremely strong and durable. Our aluminium is powder coated to prevent oxidation and ensure years of outdoor use.

### Quick Dry Foam

Advanced, high-performance foam designed specifically for outdoors. The porous open-cell structure allows water to drain rapidly and fresh air to circulate freely, allowing the fabric to dry in record time.

### Sintered Stone Tops

Our Sintered Stone tabletops are highly scratch, UV and temperature resistant. Hygienic and very easy to clean, they have almost zero water absorption so can be left outside all year round. Sphere 160cm Stone colourway top is made from Porcelain.

### Twisted Rope

Made from Wintech PE Weave, a non-toxic & recyclable material. Polyethylene (PE) is a synthetic resin which makes it moisture & tear resistant, strong & pliable as well as pest & fungus free.

### PolyTeak

Poly Teak is a man-made environmentally friendly material that looks & feels like real Teak wood. It is 100% water resistant, easy clean and is resistant to splitting & rotting.

### Parasol Fabric

The canopy is made from solution-dyed acrylic, which is resistant to fading, UV damage and biodegradation. The fabric includes air vents to promote circulation and prevent mould and mildew build up.

### AeroCover® Protective Covers

AeroCover® protective covers are manufactured from high-quality Ripstop Polyester with an AeroCover® membrane. The covers breathe and are both dirt and water resistant.

## Dining

---

Elevate your outside space with our wide selection of all-weather dining sets. Every product in our dining range is expertly designed for the perfect balance of style and comfort, whilst also being UV & weather resistant. This even includes our fabric pieces, which use the latest Quick Dry Foam technology & Sunbrella® or Axroma® fabrics.

Our modern garden dining sets can be mixed and matched to produce your ideal vision. Whether you are searching for a round or rectangular table with 4, 6, 8, or 10 chairs, we have a wide range of outdoor dining sets to suit every occasion.

# Pergolas

As well as creating a stunning aesthetic in any outside space, our heavy duty aluminium pergolas also come with several practical features. The tilting roof louvres can be controlled by a simple handle mechanism, enabling you to switch between a sheltered space or an open roof, allowing sunlight to come flooding in. The shuttered roof also has integrated drainage channels to divert excess rainwater down specially engineered passages inside each leg.

Our Pergolas perfectly match with any of our dining, lounge or sofa ranges, so this product is sure to take your outdoor living experience to the next level.

## Features

### Adjustable Roof Louvres

Thanks to the tilting roof louvres, you can switch between a closed sheltered space or an open top which allows sunlight to come flooding in.

### Wall Louvres

Louvre side walls can be purchased individually. Each side takes up to 3 louvres and can be used in any combination required. The Wall louvres are fixed and come in Charcoal or Oak Effect.

### Zip Blinds

Pull down blind cassettes available to purchase individually. The Pergolas can take up to 4 blind cassettes, except for the 7.2m x 3.6m Pergola which can take up to 6 blinds.

### Solar Powered LED Roof Louvre (for Summit Pergola)

Add a touch of class and sparkle to your evenings with the solar powered Summit LED roof Louvre, an upgraded replacement for the standard roof louvre. Not available on Emperor pergolas.

## Pergola Disclaimer

When assembly of the Pergola frame is accompanied with blinds and louvre walls, either the floor or the 4 legs must be completely level. If the Pergola is not level the blinds will not operate correctly.

Please Note – Most patios are angled to allow water to flow away, so a packer will therefore be required. We cannot be responsible for an uneven floor/patio. At the point of delivery/assembly a signature (POD) will be required to confirm the delivery/assembly process has been completed successfully, Westminster cannot accept responsibility if the Pergola is moved or modified in any way.

**WS-SOLARLOU** - Charcoal

# Parasols

Westminster have a wide selection of parasols to suit all your garden requirements. This ranges from smaller, centre pole sunshades to heavier-duty, cantilever parasols.

All our products in this collection are manufactured using high-quality materials, including an anti-stain and UV resistant canopy with either a robust aluminium or stainless-steel frame.

# Features

## Fade Resistant

Our parasol canopies are upholstered using 100% solution dyed acrylic. This means that the fabric yarns are coloured all the way through, creating a more fade-resistant material.

## Easy Care

Our parasol fabric is considered low maintenance. Dirt and stains can be cleaned using soapy water. The canopy fabric can be removed and machine washed at 30°, it must be put back on the frame while still wet.

## LED Lighting

Solar LED lights in ribs with a rechargeable USB pack, creating an ambient glow. The LED Lights are dimmable and come in a pure white hue.

## Parasol Disclaimer

Parasol fabric can develop mould in excessively damp conditions and stains will appear if left under trees. Darker parasol fabric is more susceptible to fading than the lighter colours.

The guarantee does not cover fabric fading, therefore we recommend use of the included all weather cover when the parasol is not in use.

Please note: We strongly advocate the use of a base stand with all Westminster parasols.

Please ensure LED lighting is turned off fully before closing parasols. Always close parasols when not in use or unattended and do not leave up in windy conditions.

Westminster cannot be responsible for damage if a parasol is left up in windy conditions.

## Horizon Parasols

Illuminate your garden with our Horizon centre-pole parasols. They feature a charcoal colour frame, 48mm pole and solution-dyed acrylic canopy. The 8 aluminium canopy ribs also include integrated LED lights with a rechargeable USB pack, creating an ambient glow. Open and close the canopy with ease with the simple crank handle mechanism.

The canopy material is made using an innovative technology which is resistant to fading, UV damage and biodegradation. The fabric also includes air vents to promote air circulation and suppress development of mould and mildew.

£495

### Horizon Solar LED 2.5m Square Parasol

H 250cm W 250cm POLE 48mm WT 8kg

Solar LED Lights in ribs with a rechargeable USB battery pack.

**TR-BASE40**

## Twilight Parasols

Transform your outside space with our advanced, high-quality Twilight cantilever parasols. A key feature is the beautiful solar-powered LED Lights which stretch across each of the 8 ribs underneath the canopy cover. This integrated functionality allows you to extend your outdoor experience well into the night.

The 3.5mØ parasol features a front-to-back and side-to-side tilt function, with 360° rotation, shading you all day long as the sun moves. Perfectly matched with any of our dining, lounge or sofa ranges, this product is sure to raise your outdoor living experience to the next level. (Twilight parasol will require a Westminster cantilever base.)

£1,295

TR-BASE120

## Parashade Cantilevers

Exclusive to Westminster, the Parashade cantilever parasol is the perfect home or hospitality shade solution. The unprecedented design addition of Gust Busting Arms will prevent any damage from occurring during high winds. The stainless steel ribs are designed to pop out under high pressure, protecting the product from falling over and damaging the cantilever.

The cantilevers also have a rib spring system to ensure a tight canopy and the 3.0m round cantilever has a tilting mechanism, giving a number of shading angles. With such versatile features and a beautiful minimalist design, these Parashade cantilevers are robust and easy to use. A concrete freestanding base is included.

£1,395

Parashade 2.1m Square Cantilever with Base

H 245cm W 210cm WT 140kg

Marine grade 316 stainless steel & anodised aluminium arms.

**SF-PARA-2.1SQ-218** - Stainless Steel/Slate

**SF-PARA-2.1SQ-005** - Stainless Steel/Natural

£1,495

Parashade 3.0m Round Cantilever with Base

H 245cm W 300cmØ WT 140kg

Marine grade 316 stainless steel & anodised aluminium arms.  
Gust Busting arms. Includes concrete base with wheels.  
Parallel motion, easy opening and closing action.

**SF-PARA-3R-218** - Stainless Steel/Slate

### Gust Busting Arms

The Parashade cantilever parasol has an unprecedented design feature - Gust Busting Arms

If a strong gust of wind hits the cantilever, the stainless steel ribs will pop open, preventing the parasol from falling over, or damaging the parasol.

You can then simply pull the ribs back down and they clip back into place.
